BRITISH
WARRANTY**

SOLAR ENERGY

THE FOUNDATION OF ECONOMIC
FREEDOM AND PROSPERITY

Renewable energy products have been one of the leading new growth markets for the last ten years. Many countries around the world have only just started the journey of deploying solar power to help families and businesses meet their energy needs as they grow and develop. We see a huge potential for significant growth in demand for solar PV panels in the developing world. Increasingly governments around the world see the need to bring power to communities, particularly those in rural areas. Individuals and business also see solar power as a way to avoid the everyday misery of load sharing and power brown outs.

WHO ARE WE?

We are an independent British company producing solar PV panels for export around the world.

We have English management with a long experience in the solar industry.

We produce a high quality range of mono and polycrystalline solar PV panels.

We specialize in supplying markets in Asia, Africa, the Americas and the Middle East.

Our prices are highly competitive.

British based order management, technical and customer support.

We believe in building long term partnerships with our resellers globally. We enjoy helping solar companies to build local market share.

We offer FOB & CIF delivery to any international shipping port in the world.

Low risk procurement through British banks.

WHY CHOOSE US?

30 year performance warranty supported from the UK.

12 year product warranty.

Fast global delivery direct from the factory.

We always use Grade "A" high quality solar cells and materials.

Stringent quality controls.

Latest technology including PERC cells, double glass, bi-facial, etc.

International certification and testing.

Prices that automatically track the global market price.

Factories in China, Poland and the Middle East.

A 100% British owned company you can trust.
